

# Parents as Teachers

In the first few years, children learn more and at a faster pace than at any other time in life. You help shape your child's future through the kinds of experiences you provide. Your baby was born to learn, and as a parent, you are your child's first and most important teacher.

## **As a PAT family, you receive the following services free of charge:**

### **Personal Visits:**

During which your parent educator will share age-appropriate child development and parenting information, help you learn to observe your child, and address your parenting concerns.

### **Parent Workshops and Group Events:**

Which are opportunities to share information about parenting issues and child development. Parents learn, support each other, observe their children with other children, and practice parenting skills.

### **Screenings:**

To assess your child's overall development as well as health, hearing and vision.

### **Resource Network:**

That links your family to other community services if needed.

Each program may offer other services such as story times, school-readiness programs for pre-schoolers, toy and book check-out, make-it-take-it centers in which you may make educational games and activities for your child and much more. Call today to see what's available in your area!

You and your baby deserve the support **Parents as Teachers** offers. Give your child the best possible start in life because your baby was born to learn!
